COMBINED X-RAY RADIOSCOPY AND TOMOGRAPHY ANALYSIS FOR SEDIMENTARY CORES AND MINERALS

M. Iovea¹, O.Duliu², G.Mateiasi¹, M. Neagu¹, M. Mangu¹

¹ Accent Pro 2000 Ltd, Bucharest, ROMANIA, www.accent.ro

² University of Bucharest, Faculty of Physics, Bucharest, ROMANIA

We present in the first part our X-ray dual-energy Radioscopy and Tomography laboratory equipments for measuring the Atomic effective number (Zeff) and Density with high-accuracy and continue with some measurements made for minerals and sedimentary cores.
